---

Eric Peryer is currently the Secretary of PDA's Midwest Chapter a role he has held since January 2020. In addition to his responsibilities as Chapter Secretary, Eric is Co-Chair of the planning committee for the annual Microbial Contamination and Control all day event and provides technical support to the chapter's webinar series.

Eric is also a Senior Manager, Research leading the Sterility Assurance team in Baxter's Medication Delivery business unit. Current responsibilities include supporting terminal sterilization for new product development and changes to existing products across the globe as well as Global Pathogen Safety. The team is also responsible for the development of Sterility Assurance related content included in Regulatory submissions. Eric has over 25 years of experience in the pharmaceutical industry including formulation development, installation and validation of cleanroom and aseptic processing equipment and terminal sterilization of IV drug solutions and medical devices. Eric has been with Baxter since 2006 and holds a B.S. degree in Chemical Engineering from Clarkson University in Potsdam, New York.
