

Renee Morley
Senior Technical Services Specialist
Contec, Inc.
Cleveland, Ohio
E: rmorley@contecinc.com

Renee Morley is a Senior Technical Services Specialist for Contec, Inc. providing expertise, education, and assessment regarding industry best-practices and technical applications of disinfectants solutions, wipers, and mops for use in cleanroom and other controlled environments. She has over fourteen years of experience leading training on contamination control in cleanrooms and providing technical support related to critical environments, cleaning and disinfectant programs, disinfectant efficacy testing, and disinfectant validation. Ms. Morley is a valuable resource in the areas of site evaluations, training and technical presentations, and educational seminars.

Ms. Morley is a Past President of the Parenteral Drug Association's Southeast Chapter (PDASE). She joined PDA in 2010 and has held various positions with PDASE, including Networking and Events Chair, Secretary, President Elect, and President. Ms. Morley was instrumental in leading the efforts of PDASE to connect members with non-members by providing both with a channel to network with colleagues. The events she headed include networking events, dinner meetings, conferences, facility tours, and student outreach.

In 2018, Ms. Morley was recognized as the PDA Volunteer of the Month and participated on the planning committee for the first virtual PDA Annual Meeting (2020). Ms. Morley has received two Service Appreciation Award's honoring her contributions as the President of the PDA Southeast Chapter and for her contributions on the Chapter's Board of Directors.

Ms. Morley has spoken at Life Science industry events including the Inaugural Women in Life Science's Conference held in Austin, Texas in 2018 and Tampa in 2020, and led workshops on networking. She received an MBA from Lake Erie College in Painesville, Ohio, and a BA in Marketing from Ohio University in Athens, Ohio.
