

Jason Willett is currently the Midwest Manager for Veltek Associates Inc., providing contamination control products and services to the pharmaceutical, biotech, and healthcare industries. In this position, Jason regularly consults with pharmaceutical manufacturers in the areas of cleaning, disinfection, aseptic practices, environmental monitoring and regulatory expectations. With over 20 years of relevant experience, Jason is able to help customers develop compliant and cost-effective contamination control programs. In addition to his responsibilities at Veltek, Jason is currently the Treasurer for PDA Midwest, serves on PDA's Exhibits Committee and is a member of PDA's Global Conference on Pharmaceutical Microbiology Program Planning Committee.

Jason graduated from the University of Cincinnati with a bachelor's degree in Chemistry and lives near Cincinnati, OH with his wife, Leslie, and three children, Ella, Laney and Matthew. Outside of work, Jason volunteers with local youth sports organizations, Kiwanis, and Scouts BSA.
