

*Marcia Baroni is the VP of Quality Operations at Emergent. She is a microbiologist from the University of Toronto and holds an MBA from Purdue. Marcia has been working in the biopharmaceutical industry, in Quality, for the past 23 years. She has supported sites around the globe including North and South America, Europe, and Asia. Over her career Marcia has had oversight over API and bulk manufacturing as well as fill finish, inspection and packaging and labelling operations. She has also had experience with drug-device combination products. Marcia has specialized in sterility assurance and contamination control. She has worked with traditional aseptic, RABS as well as isolator lines and her experience spans vials, cartridges, and syringes in BSL2 and BSL3 manufacturing and testing facilities.*
