

Brenda Sullivan, Ph.D.

Director, Sterility Assurance, Pfizer

Brenda Sullivan, Ph.D. has been working within the pharmaceutical industry for over 25 years, holding positions in quality systems and program management. She is currently working as the Aseptic Sterility Director supporting all global injectable Pfizer locations in the areas of microbiological testing, environmental monitoring, aseptic processing, audit support and training.

Prior to joining Pfizer, she was the Microbiology Manager at CSL Behring Pharmaceutical Company (formally ZLB Behring). Dr. Sullivan began her career in 1986 as a Research Assistant for Rush Presbyterian Saint Luke's Medical Center and later received her Ph.D. in Immunology/Microbiology in 1997.

Dr. Sullivan has expertise in compliance, pharmaceutical manufacturing, aseptic processing, microbiological laboratory management, quality training and quality program management. In addition, she has presented topics on Environmental Monitoring and Deviations and Excursions at the Pharmaceutical Microbiological Forum and International Pharmaceutical Academy workshops.
