

Lauren Specchio is currently a Research Associate III within the Sterility Assurance team in Baxter's Medical Products & Therapies business. Current responsibilities include supporting changes to existing products as well as sterility assurance activities for new product development. Previous responsibilities have included container closure integrity and primary packaging microbial barrier subject matter expertise and support.

Lauren is a current PDA member and has participated on the PDA Annual planning committee for the 2022 and 2023 PDA Annual Meetings.

Lauren has a B.A. degree in Biology with a minor in Biochemistry from Augustana College.
